

1. Here We Go

Here we go, get ready for us we're not a nightmare, we play at midnight

Here we come, get ready for us, we're not an illusion, we're not in your mind

Here we go, from heaven we come, the day has come you waited for too long

Here we come, the danger is gone, please don't be scared and keep going on

There we were, now here we are and here we go, we're going to the top we're taking the skyway

Here we go, here we go, were going to the top, we are the skyway.

Here we go, we're a new band and we're gonna take you to the promised land

Here we come, we will shake your hand and rock n roll will make you our fan

There we were, now here we are and here we go, we're going to the top we're taking the skyway

Here we go, here we go, were going to the top, we are the skyway.

2. Only Maybe

You are right, I'm wrong but I wrote this song,

yeah I'm free as you will never be

Let's face the truth it's never so smooth

But don't waste this moment just enjoy your youth

But there're people who are crying for you,

and there're people who are lying to you.

Are you like you want or only maybe?

Roger Sánchez March

Are you learning now or only maybe?

Leave your mask back there with your past

And give yourself some time enjoy

How the laughs slowly turn into applause

But don't waste your life trying to fit in their plans!

But there're people who are crying for you,

and there're people who are lying to you.

Are you like you want or only maybe?

Are you learning now or only maybe?

All of what you see is meaningless

Your life at this point is just a mess

Half of what you know is not true

Only time will tell if it's been you

I'm day you are night, so don't waste my light

Yeah I'm me and that's all I want to be

I think you like being the hurting kind

And you enjoy changing people's minds

3. **Mors Osculi**

If your veins are pumping blood and if your spirit is lost without faith that hugs
your thoughts

And if your heart keeps beating just right after you felt the kiss of death and you
gave her

Roger Sánchez March

Your spirit and your soul

Your muscles are relaxed and your body feels untitled it's the end of your life it is not what you deserve and I see you in my mirror you are not dead but you are somebody new

I died before dying, and you can say that I died trying, giving all my best.

Mors Osculi is not what I thought

That's why Lucy gave me all her love

If your veins are pumping blood and if your spirit is lost without faith that hugs your thoughts

And if your heart keeps beating just right after you felt the kiss of death and you gave her

Your spirit and your soul

The angels of my death snatch lives through a tender kiss and then my ego is dead and I feel free this when I realize it's my mystical death.

I died before dying, and you can say that I died trying, giving all my best.

Mors Osculi is not what I thought

That's why Lucy gave me all her love

4. In The Street

I was walking around nowhere to go

I was feeling down nobody to meet

I was laying down there in the street

And I was alone nobody with me

And I don't care what's wrong with the world

Cause I'm still sitting here in the street

Roger Sánchez March

And all the lights and stars that shine
Are there trying to show me the way
Cause I still don't know where to go where to go

In the street all alone nobody's with me
In the street all alone nobody's with me

5. **Flowers**

Dreaming is easy will you please forgive me for chasing that liaison and that's the main reason

Why I been alone and I'm sick to the bone and I hope that my love will go on still the end when I'm old

You know my life has changed is not the same since you came and I mean every word that I say to you

You, you you

You, you, you

Yeah you you

You, you

You came out of nowhere and showed me my new life, now I'm better than ever you opened my eyes I'll give you!

Flowers for meezies are flowers to live free, a life style, a choice made, the reward to the price paid

I am still amazed by the man I became and I cannot believe what I see girl it was meant to be

Are you ready to jump don't stay steady and kill all your fears until they're crystal clear

Flowers for me and for you!

You, you you

You, you, you

Roger Sánchez March

Yeah you you

You, you

You came out of nowhere and showed me my new life, now I'm better than ever
you opened my eyes I'll give you...

Flowers!

6. **High Fever**

Temperature is rising I'm hotter than hell, you know how I'm feeling my doctor
will tell

My body is changing I'm white as a ghost, I want to get better just at any cost

I'm not lazy I'm tired, can't move from my bed, suddenly a fire is burning my head

I wish I was healthy I'd run to the hills Instead I'm here taking my pills

I'm feeling down I hate being in pain, I hope I'll never have to see you again

Fever is high it's hard to breathe, brokenhearted I only can sneeze

There must have been a lot of days that you spent alone

Inside your room aching head on your own

You must have had a lot of time to think of yourself

But now it's too late for you to ask for my help

High fever is burning in my head

My doctor will visit me on my bed

There's nothing about me that can be said

Cause my disease wants me to be dead

Roger Sánchez March

7. Laugh At Yourself

Don't talk me back tell me where you've been

Don't you know you're just a teen

Do your work and then go to bed

Good marks is what you need to get

Forget your friends they're your enemies

Read your sentence and be pleased

You'll be trapped naked in my chains

Until you're able to resist the pain

The work is done the nightmare is gone

Now it's my turn and you're going to burn

And remember to laugh at yourself.

Don't look back forget where you've been

Don't you know you're just sixteen

Leave your toys and hurry up

Do what I say never leave a gap

Don't shake your head get up from your bed

And don't forget to raise the dead

Go to the church and eat your food

I hope all is well and understood

Roger Sánchez March

The work is done the nightmare is gone
Now it's my turn and you're going to burn

And remember to laugh at yourself

8. **Fly Away**

You wake up alone in a cloud up there in the sky
Your eyes are wide open somebody whispers in your ear
Clouds look brighter and flavors are clearer today
You're standing on the top of the world on the shoulders of god
Sunlight, wind and heaven you are as happy as can be
You are floating up in the air there is nothing we can do
Ending is just the beginning if you cross that door
You are shaking and nervous and listen your heart is beating fast!

Am I the only one who wants to fly away today?
Am I the only bird who dies to leave his nest and say:
I don't understand the logic of this place but hey!
Now I'm far away living in my free will and I say:

Fly Away Away Away eh eh eh

I fell asleep into a dream that I can't explain
I hold my eyes closed something sparkles my fear to god
Colors are sharper and shapes are shadows at night
I'm changing the course of the world but only in my mind

Roger Sánchez March

Go take your wings jump and let the destiny flow
I am suspended in some kind of magic a strange mood comes to me
Leaving forever this prison the first step is now
I'll fade into proper smoke as my thoughts change really fast

9. **Sex Tonight**

I've been waiting for you this last long lonely year
Now I'm afraid that you have changed your mind my dear
Let's go to bed my love get ready for the fight
We will have a great time, we will have sex tonight

Sex sex tonight, Naked and alive, Sex sex tonight, Naked and alive
Buggery has no sense if there's no climax at all
Hanky panky all night slap and tickle tonight
We'll start with a blow job and end with pillow talk
You'll see me naked in bed and babe I'll hold your head

This is not enough for me, let's overcome the birds and bees
Trying to avoid temptations, we all need ejaculation
Slowly Taking off intentions, softly increasing heart pulsations
Intercourse with penetration's something worth the information
In the sack in weird positions, people sharing deep deep feelings
Releasing tension, sharing lessons of free love our great invention
This is it tonight's the night, we are not going any light
Our bodies melting pretty tight with our clothes out of sight

Roger Sánchez March

Sex sex tonight, Naked and alive, Sex sex tonight, Naked and alive
Sex sex tonight, Naked and alive, Sex sex tonight, Naked and alive

10. Here And Now

What is that thing everybody is doing today?
Is it a joke or do they think we are a game to play?
Why do ya think are they all trying to run away?
Is it that they think we have nothing to say?

You're living in the past you're not here and now!
You're living in the past you're not here and now!

You know I believe so tell me something I don't know
You're wasting your time, see your only answer is "no"
You're making me laugh, shame is the main dish in your show
You know we will win, you are a kid that still has to grow

You're living in the past you're not here and now!
You're living in the past you're not here and now!

Cause today my life has changed it's not the same
Cause every day is getting better in so many ways

What is that shit that is happening around today?
Is that the truth that you only hide and pray?
Why do I have the feel that our future will be grey?

Roger Sánchez March

Is that they fear the cards that we have to play

You're living in the past you're not here and now!

You're living in the past you're not here and now!

You know we will win you are a kid that still has to grow

You're building a wall but the west wind will still blow

You're not scaring me you have no muscle left to show

You're saying goodbye but dude, I say hello

You're living in the past you're not here and now!

You're living in the past you're not here and now!

Cause today my life has changed is not the same

Cause every day is getting better in so many ways

You should be here, here and now with me

You should be here, here and now with me

You should be here, here and now with me

You should be here, here and now with me

11. Good Looking

Oh I'm feeling good looking and attractive,

Aurora borealis projected in the art,ic,

Oh I'm delicate, handsome and fantastic

Can anybody tell me if this is magic?

Roger Sánchez March

I'm so grateful that everybody adores me
and I'm talking about becoming legendary
But in conversation I will never truly
Show you my thoughts, my dreams or my feelings

All my life, people've been taking what is mine, robbin' and stealing all my time,
for being Good Looking butt...
Now I find that everybody is feeling down, chasing their shadows blind at night,
but I'm still Good Looking!

Mirror, mirror tell me, who is the prettiest in here
Oh! This pretty face open doors so easily
They all assume I'm arrogant and stupid
So numb to see me as how I am truly

You really shouldn't care if someone tells you're ugly
What's inside the tin of beans is the important for me
And nobody in here is taking about the body
But this one here will stay young until I'm forty

12. Thunder Rumble

The most important thing is the most easily forgotten
What takes you out of bed and makes you live every morning
Something in this place makes me feel so special
It's the rain at night that really calls my attention

Roger Sánchez March

Thunder rumbles distant in the eye of the storm
Water slides through the glass like tears in my eyes
Thunder rumbles distant in the eye of the storm
Rain and rain and rain falling down

The calm, the peace, the mood that this cold weather gives me
Feel the wind the clouds the fog deep breathing in the evening
There's something in the rain that makes me feel so special
It's the sound of thunder that truly calls my attention

Thunder rumbles distant in the eye of the storm
Water slides through the glass like tears in my eyes
Thunder rumbles distant in the eye of the storm
Rain and rain and rain falling down
